

COMMERCIAL ASSET MANAGEMENT

Prestige Property Group provides Asset Management Services for Investors wishing to Invest in Property but not be burdened with the day-to-day problems of managing the investment. The process begins with outlining the desire of the investor, the area they wish to invest in and the time frames they wish to participate for, together with the risk profile that suits their investment strategy.

9 LOFTUS STREET LEEDERVILLE

This office building is occupied by Ansa Global Security. Prestige Property Group was commissioned to up-grade the facade and overall presentation to reflect the change in market positioning of the business from a Western Australian owned and operated business to a National Company with plans to become an International security leader.

The artwork and colour schemes needed to reflect that change in corporate direction and compliment a business that is modern, professional and innovative.
